WE ARE VIAPACK MAROC

Welcome to **VIAPACK MAROC**, a leading industrial packaging company based in Tangier, Morocco. We specialize in providing high-quality packaging solutions tailored to meet the needs of various industries, including automotive, manufacturing, and logistics.

STRETCH FILM MANUAL

Hand application stretch film, commonly used for pallet packaging.

- Thicknesses ranging from 7 to 50 microns and widths of 450 and 500 mm.
- Pre-stretch from 150% to 350%.
- Available in colors and printed.

STRETCH FILM AUTOMÁTICO

Stretch film for pallet packaging in front of automatic palletising machines.

- Thicknesses from 7 to 50 microns and widths of 450 and 500 mm.
- Pre-stretch from 150% to 350%.
- Available in colour and printed.

FEUILLARD PET & PPT

Polyester Strips have as main applications the strapping of pallets of bricks, wood, for products requiring heavy demanding high mechanical strength.

In some cases, it is the replacement of steel strip for its strength and its resistance to external conditions.

Cardboard corners

Cardboard corners, in different wing and length measures, in kraft color and white. Ideal for protecting pallets and better strengthen the load.

Industrial Elastic

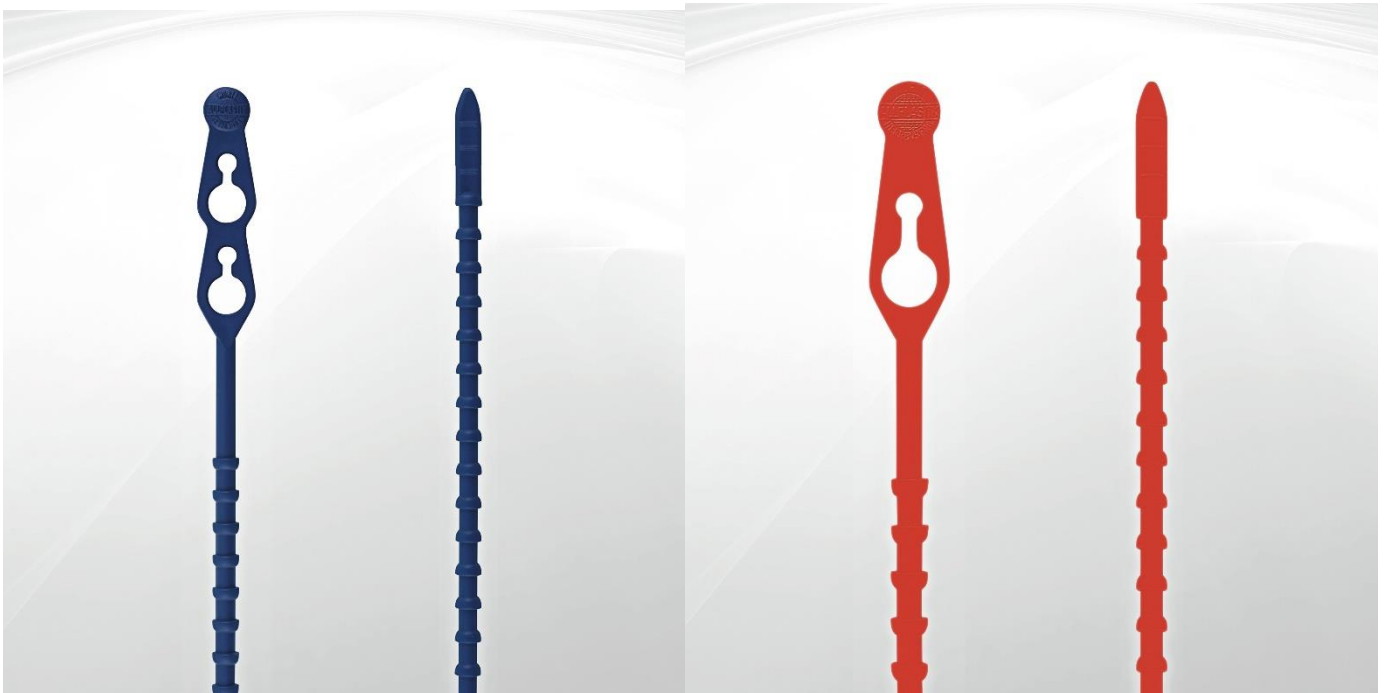

PROPERTIES: Natural Rubber anchor band with high physical properties, such as high elasticity (elongation). It maintains properties in temperature range of -20 to 90 °C.

RECOMMENDATIONS It is usually used for applications where the highest physical properties are required. It is not recommended for applications where resistance to oil, gasoline, hydrocarbon solvents and outside elements such as UV and ozone, is required.

Types of industrial Scotch

Scotch is a smooth crepe-colored chamois masking tape designed for use in temperature-setting paint operations.

Scotch tape allows for good paint masking during a 121° C cooking cycle for periods of up to one hour. In addition, it is used in industry for maintenance operations, banding, protection and for a large number of applications requiring the use of adhesive tape.

Circles of woven adhesive tape

Circles of adhesive tape of american fabric with rubber adhesive. Rolls of 3,000 units presentation output 2 or 1. Diameter 30 mm.

Tesa 6400 Comfort – Handheld strapping tool for straps up to 50 mm with cut-resistant

Tesa 6400 Comfort is a professional hand-held strapping tool for all types of packaging tape up to 50 mm. The serrated blade is protected to prevent accidental cutting. Includes brake to regulate the tape tension. Soft rubberized handle for comfortable working.

High quality European standard reusable wooden pallet for forklift without fumigation.

Product Description :

Basic Info.

Model No.	HF-19
Size	personalized
Entry type	4 Ways
Insulation	Insulation
Specifications	1200*1000*140mm customized

Material	Drink
Load capacity	personalized
Style	Single Face
Transport Package	boxes
Trademark	hongfei

Stackable plastic pallet container

This wheeled base or dolly is suitable for standard European sized boxes. You can easily move your boxes or containers by simply placing them on this transport trolley. It makes it easy to transport boxes measuring

- Robust and practical: one-piece open plate in ABS.
- Easy to manoeuvre: equipped with 4 swivel rubber wheels Ø 10 cm.
- Space saving: stackable when empty into a stable stack.
- Supports a load of up to 300 kg.

Pallets trucks

Description :

Manual pallet truck, forks length 800mm. High load capacity up to 2.500kg. Rudder with spring return. Rudder wheel elastic rubber. Double front rollers. Pump security, which stops when the load exceeds its maximum. Easy to maneuver even in tight spaces. Self-lubricating bearings, to prevent damage and improve maintenance ensuring a longer life. Valve for fast downhill without load, being slower to load. Wheels 200 mm for smooth and easy operation. Made to order, please contact us

Strapping tolos LINDER Survivor LST252/404 for plastic strap

- Our innovation on the market - the LST252 and LST404 battery-operated devices from LINDER. And the LINDER Survivor LST252 / 404 does what it promises. We have found the perfect balance for maximum manoeuvrability. Due to the ergonomic design, it fits perfectly in the hand and is perfectly balanced with its low weight of only 3.6 kg. With the BOSCH high-performance lithium-ion battery, it manages up to 600 strapping cycles and only needs 30 minutes to be fully operational. The extremely durable housing does not give up even in adverse environments. And the included suitcase keeps everything safe when not in use.

Due to the perfect processing of high-quality components, this device offers an excellent solution for your strapping.

Electric Welding Strapping Machine - ORT260 Orgapack

- Orgapack ORT260 electric strapping device with welding (by battery)
 - Works with PP (polypropylene) or PET (polyester) strapping.
 - The Orgapack ORT260 electric strapping tool with welding function (battery powered) is compatible with polypropylene (PP) or polyester (PET) straps.
 - It offers several operating modes: automatic, semi-automatic, manual or soft.
 - The tool provides real-time indication of the applied tension force as well as the alignment of the strap.
- The tensioning speed is adjustable with a simple finger press thanks to its brushless motor. Equipped with a rechargeable Li-Ion battery with no memory effect and a long life, this electrical device tensions, welds and cuts the strap with a single touch in automatic or semi-automatic mode.

GT-SMART battery strapping SIAT

GT-SMART battery strapping machine with friction welding.

Adjustable operating mode depending on the application : Semi-automatic, Manual and Soft.

START voltage button + electromagnetic welding trigger

Easy to use, easy adjustments and perfect balance.

The GT-SMART battery strapping device can be used for vertical and horizontal strapping ,

CUSHION PROTECTION AND FILLING

The SPK 7004 machine is ideal for **protecting fragile products with air cushions or bubble wrap**. For products that require a certain level of protection, air filling ensures that they are not damaged during transport.

Machine for low production rates.

It is **easy to operate** and saves **storage space**. Ultra-small airbag production machine, it **weighs only 3 kg**.

Powderpack Corrosion Inhibitor Powder 50 gr

The sachets contain a **powdered volatile corrosion inhibitor (VCI)** that protects ferrous and non-ferrous metals against corrosion, oxidation, tarnishing and discoloration.

This is an extremely effective method for dry preservation of metal parts in an enclosed space such as cardboard boxes, wooden crates, metal and plastic boxes or polyethylene bags.

Labels for DYMO LabelWriter printer

- Labels for table printers (25mm core)
- Labels requiring the use of thermal transfer ribbon (WAX)
- Labels with removable adhesive that can be removed from many surfaces (except glass)

Honeywell Barcode Scanner Repair

Mercom's hardware repair services are designed to help maximize your organization's efficiency by taking the stress of a broken barcode scanner off your plate completely, and return a perfectly working product back to you.
